

Hunter Heavy-Duty Product Guide

State-of-the-art service equipment

Alignment Systems

WinAlign® heavy-duty alignment system

Hunter's HD system delivers unique alignment features specifically for heavy-duty truck, trailer and bus applications.

- ✓ More than 60 axle configurations supported
- ✓ No toe lines, cables or "strings"
- ✓ Specification database supplied by major manufacturers

DSP700T alignment sensors

High-speed wireless sensors are light-weight with reliable integrated electronics.

- ✓ Rolling compensation capable
- ✓ 6 or 4 sensor sets available

QuickGrip adaptors

- ✓ Fast installation
- ✓ No metal-to-metal contact
- ✓ No additional software or hardware required

Trailer alignment

- ✓ Align without unhooking from tractor
- ✓ Align trailer alone with optional adaptor
- ✓ Accurate to 600 inches

Quick Check® trucks

Increase alignment opportunities by checking every truck that comes to the garage.

- ✓ Quick rolling compensation
- ✓ Readings in as little as 3 minutes

PowerSlide turnplates

- ✓ Auto-locking capability
- ✓ Built-in bridges for rolling compensation
- ✓ Suitable for floor or rack use

Truck pusher

Battery-operated pusher easily rolls the truck for accurate rolling compensation.

- ✓ Doubles as a wheel chock
- ✓ Rechargeable battery

ProAlign® alignment system

ProAlign® includes the essential tools to perform accurate alignment with minimal investment.

Autonomous Inspection

Quick Check Commercial

Heavy-duty unmanned inspection.

- ✓ Unmanned alignment and tire tread readings
- ✓ Supports multi-trailer configurations, dual axles and super single tires
- ✓ Cycle trucks through continuously

Coming soon!

Wheel Balancers

HD Elite balancer

Automatically measures imbalance, runout, and assembly diameter to maximize tire life and fix vibrations. Handles almost any size assembly from passenger cars to the largest trucks.

- ✓ Lasers automatically enter wheel dimensions to reduce errors
- ✓ Fix the most challenging vibration complaints
- ✓ Maximize tire life by matching dual tire assemblies

Premium Centering Adaptors

- ✓ Ensures assemblies are mounted correctly
- ✓ Optional kits handle from smallest passenger cars to largest HD trucks
- ✓ Make sure the job is done right the first time

Racks & Jacks

Heavy-duty 4-post rack

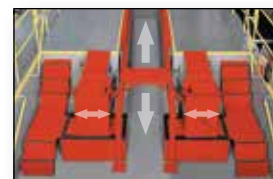

High-capacity alignment lift for commercial vehicles.

- ✓ 35,000-lb lifting capacity and 300-in. alignment wheelbase capability
- ✓ Galvanized runways offer the best in corrosion protection
- ✓ Powerful 20,000-lb jacks (optional)

Pit racks

Full-depth and shallow pit racks are designed for maximum efficiency and safety.

Optional HD jack

RKHD or pit rack option

- ✓ 32,500 lbs. total capacity

Tire Changers

TCX635HD

Powerful tire changer optimized for over-the-road truck tires.

- ✓ Tulip-style clamp features quick and easy clamping without damage to the wheel
- ✓ All-in-one control unit houses all user operations
- ✓ Functions close to the ground to keep heavy tires at a safe height

TCX645HD

Extra heavy-duty tire changer allows easy mounting and demounting and is capable of servicing tires to up 90 inches in diameter.

- ✓ Tulip-style wheel clamp provides universal, self-centering clamping capacity of 14 to 46 inches
- ✓ Tire cutter attachment quickly and easily cuts apart foam-filled tires for disposal

Heavy-Duty Mobile Service Truck

Expand your shop's capabilities.

- ✓ Provide on-demand mobile services
- ✓ Outperform your competition
- ✓ Increase revenue and expand your company's footprint
- ✓ Decrease overall costs
- ✓ Customize your truck or trailer configuration
